EXPERIENCE

Software Developer Intern

Omegasoft Technologies

June 2023 - July 2023 | Pune, India

- Implemented backend functionality using Java, JDBC, and MySQL, including login authentication and dashboard data handling.
 - Identified and fixed bugs, contributing to improved application stability and participating in team-based development workflows.
-

PROJECT

KrushAI – AI Agricultural Decision System

January 2026 - May 2026 | [GitHub](#)

- Built full-stack AI agricultural system integrating 4 ML modules for disease detection, crop recommendation, irrigation scheduling, and market forecasting
- Developed ML pipelines using MobileNetV2 and scikit-learn for image classification, data preprocessing, and predictive modeling
- Designed and deployed FastAPI REST APIs integrating weather data and time-series forecasting with React-based dashboard

PaperPulse — Research Paper Workflow Platform

January 2025 - August 2025 | [GitHub](#)

- Built a full-stack research paper management system to handle submission, review, and publication workflow using React.js, Node.js, Express.js, and PostgreSQL.
- Developed secure RESTful APIs with JWT-based authentication and role-based access control (Author, Reviewer, Admin) to manage workflow permissions and actions.
- Designed relational PostgreSQL schema with audit logging and integrated automated email notifications for submission status, review feedback, and approvals.

Automated Attendance System using Face Recognition

August 2024 - December 2024 | [GitHub](#)

- Built a face recognition-based attendance system using Python, OpenCV, Flask, and SQL for automated student attendance tracking.
 - Developed Flask backend with RESTful APIs, user authentication, and role-based access control for secure admin and student operations.
 - Implemented real-time face detection pipeline integrated with SQL database for attendance logging, record management, and automated report generation.
-

EDUCATION

Bachelor of Engineering (B.E.) in Computer Engineering

Zeal College of Engineering & Research Pune | Expected 2027 | CGPA: 9.24

- Aavishkar Project Competition — Selected from college level to zonal level
- Published a paper in IJCRT (International Journal of Creative Research Thoughts) and received publication certificate.

Diploma in Information Technology

Government polytechnic Awasari | 2024 | 88.38%

- Secured Third Position in Project Exhibition - IT Department.
 - Recipient of **Lila Poonawalla Scholarship** for 3 consecutive years based on academic merit.
-

CERTIFICATIONS

AWS Cloud Practitioner Essentials

Amazon Web Services | 2026

- Gained foundational knowledge of AWS cloud computing including EC2, S3, IAM, and global infrastructure
- Understanding of core cloud concepts such as networking, storage, databases, security, and serverless architecture

Linux Student Training Programme

Spoken Tutorial Project, IIT Bombay | 2023

- Gained hands-on experience in Linux fundamentals including file system navigation, command-line operations, and system management
 - Developed practical understanding of Linux environment used in backend and server-side development
-

SKILLS

Programming Languages - Python, JavaScript, Java

Backend Development - FastAPI, Node.js, Express.js, REST APIs, JWT Authentication

Frontend - React.js, HTML, CSS, Tailwind CSS

Machine Learning / AI - Computer Vision, scikit-learn, PyTorch, Time-Series Forecasting, Deep Learning (CNNs)

Databases - MySQL, PostgreSQL, SQLite

Tools & Platforms - Git, GitHub, VS Code, Linux

Concepts - OOP, DBMS, API Design, Authentication Systems, Data Pipelines
